

IDEATION AND DEVELOPMENT
OF BOTANICAL EXTRACTS SINCE 2011

AN ITALIAN STORY OF PASSION FOR BOTANY AND PHYTOTHERAPY

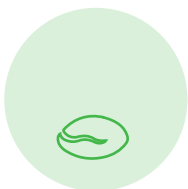

Placed in the beautiful country around Firenze, in the hearth of Chianti in Tuscany, LabioTre is an Italian company founded in 2011 with the aim of producing botanical extracts having a full control on the production chain, in order to guarantee the highest qualitative standards.

MISSION AND VALUES

From the deep knowledge of Botany, we research and develop innovative extraction methods that allow us to make the most from the plants, while respecting their physiology. This approach is reflected in our herbal extracts which come out genuine and complete, since the whole phytochemical complex is preserved.

We work with passion and creativity, getting superior quality extracts, with enhanced technological performances thanks to our granulation process, because we want that our raw materials bring a real health benefit to the final customer.

CURIOSITY

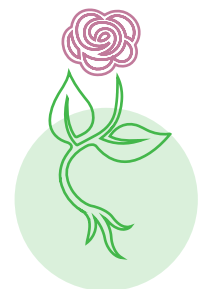

RESEARCH
AND STUDY

RESPECT OF
PHYTOCOMPLEX

HIGH
QUALITY

HEALTH
BENEFIT

COMPANY

FROM PLANTS TO DRIED EXTRACTS WITH HIGH INDUSTRIAL PERFORMANCES

In its production plants Labiotre realizes

- GRANULATED DRIED EXTRACTS
- SOFT AND FLUID EXTRACTS
- MULTIEXTRACTS
- HYDROALCOHOLIC TINCTURES
- HYDROGLYCERIC EXTRACTS
- GLYCOLIC EXTRACTS
- FERMENTED PRODUCTS
- LIPOSOLUBLE EXTRACTS
- GLYCERINE MACERATES

With an exclusive industrial process

EXTRACTION

- **FAST PROCESS**
the method developed by LabioTre allows to extract the active ingredients from the matrix in a very small time.

- **UNALTERED PHYTOCOMPLEX**
the whole phytocomplex is preserved.

CONCENTRATION

The concentration process allows to increase active ingredients quantity in the final raw material

GRANULATION

**FREE FLOWING
LABIOTRE GRANULATED:**
Dried extracts with superior performances in terms of

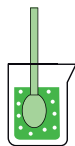

- SOLUBILITY
- FLOWABILITY
- MACHINABILITY

LABIOTRE EXTRACTS FEATURES: OUR SIGNATURE ON YOUR RAW MATERIALS

FLOWABILITY

Higher flowability of raw materials leads to minimal loss, better machine performances during industrialization phase.

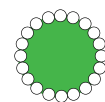

SOLUBILITY

Granulation of extracts guarantee a better solubility of the raw material.

ELEGANCE

In oro or hydrosoluble sachets is almost absent a dust formation while opening the pack.

COATING

Granular extracts can be coated with suitable agents for the production of modified release granulates.

PRODUCTS AND INDUSTRIAL DIVISION

INNOVATIVE TECHNIQUES FOR EFFECTIVE ACTIVE INGREDIENTS

Research and constant updating about the latest scientific discoveries are the engine driving Labiotre activities from the very beginning of its story.

This attitude led to the development of innovative raw materials, patented and branded in some cases.

MULTIEXTRACTS

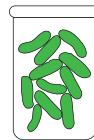

COMBINATION OF
PHYTOCOMPLEXES FROM
DIFFERENT BOTANICAL
PARTS OR SPECIES

PHYTOBILAYER

LIPOSOMAL EXTRACTS
WITH ENHANCED
BIOAVAILABILITY

FERMENTED EXTRACTS

BOTANICAL SUBSTRATES
FERMENTED BY
ANAEROBIAL
MICROORGANISMS

LABIOTECH EXTRACTS

STUDIED EXTRACTS WITH
STANDARDIZATION IN
PECULIAR ACTIVE MOLECULES

QUALITY FOR NATURE

Strict quality controls on the incoming raw materials, semi-finished and finished products ensure a batch to batch documentation that guarantee:

- Standardization of active molecules
- Compliance to in force european regulation

RESEARCH, DEVELOPMENT AND TAILOR MADE SERVICES

THE LATEST ITALIAN
CONTRACT
MANUFACTURER
FOR YOUR:

SOFTGEL PRODUCTION

A totally new plant, built with the highest quality standards, that offers flexibility of the batch sizes, thanks to the different production lines, and liability thanks to the deep expertise of the technicians.

NEW

A totally new
1000 mqs
production plant

HIGH QUALITY STANDARDS

From the project
of the building to
the selection of
raw materials

FLEXIBILITY

Different production
lines allow:
• quick response
for requests
• different batch sizes

LIABILITY

Industrial techno-
logists with more
than twenty years'
experience

SOFTGEL
